	e)	Nature & Extent of involvement of faculty and students in academic affairs / improvements.
		<p>The faculty members from the department are wholeheartedly involved in the performance of students in academic as well as co-curricular activities. The students also respond on equal basis. Following are some of the activities indicating these efforts -</p> <ul style="list-style-type: none"> * Class teachers are assigned to each class for keeping track of attendance and overall evaluation of students. They also conduct counseling meeting for students who require extra attention to be given. * Routinely theory assignments (tutorials) and tests are conducted for each subject. The theory assignment is given once per fifteen days and the tests is conducted once in the month. Faculty members evaluate these assignments and tests and record the grades, also give feedback to students on this basis. * At the end of semester, mock orals and on-line tests are conducted for students, which help them a lot in preparing for their final oral and practical examinations. This is a unique activity conducted by all the departments, which has proven to be very helpful to students over last many years. * Every year extra efforts are put in by faculty members to ensure that the syllabus is completed at least ten days prior to the official term end completion. The period up to the end of the term completion is utilized by faculty members for revision lectures, in which the entire syllabus is once again revised. This practice helps students for study of the entire subject in their preparation leave prior to actual university examination. * Guest lectures of expert professionals from industries are conducted in every department to share their expertise with our students and faculty members.

		<ul style="list-style-type: none"> Industrial visits are organized by every department to make our students aware about current trends and technologies. The result analysis is done semester-wise for each class and individual subject, which helps in taking decisions for improvement of students and faculty. Every department has academic activity in the form of national level conference/project competition/contest once in a year, which is organized jointly by respective departmental faculty members and the concerned students association of the department. ROBOCON is a national level robotic Contest for undergraduate Engineering students organized by our college jointly with Doordarshan, India. The students of various departments contribute to this event by participating and organizing the event. Every department is associated with concerned professional society and they organize events jointly. Major events organized by various department are given below: 	
	Sr.	Name of Department	Events Organised
	Enclosed as Annexure – MD02		

	f)	Mechanism / Norms and Procedure for democratic / good Governance.
		1) Every week on Friday a combined meeting of Dean and all a head of the departments where in issues pertaining to students and faculty members are discussed with a view to improve the overall academic performance of the students.
		2) Feedback mechanism exists at the end of the term where in the students evaluate the performance of the concern faculty members on various counts. The voting or feedback is completely democratic and is conducted on similar lines to secret ballot method on computer.

		3) The weekly meeting with the Dean & of HODs of all departments is followed by a meeting between the HOD and the concerned staff members of the department where in the issues discussed in the Dean's meeting are conveyed to the staff members and the follow up action is discussed. This helps in understanding the progress and problems of teachers and students. With this, faculty members get a very good platform to share their views and grievances with others.
		4) An Administrative Officer is appointed in the department who takes care of enabling resources for faculty members, attending visitors in the department and other routine activities.
		5) Every class has one appointed class teacher and guardian teachers for a group of students. The guardian teacher and students have regular counseling meeting where in individual problems and grievance of the students are addressed. This gives an opportunity to the students to discuss their individual problems with the concern faculty member. This helps in redressal of their problems so far as their academic performance as well as individual problems.
		6) The institute has a special cell called "Students Section" which is managed by a separate administrative officer whose responsibility is to co-ordinate all the activities relating to the administrative matters pertaining to students. The cell also maintains records of the students as regard to mark sheet, hall tickets etc. The cell also resolves all the disputes/difficulties of the students in this respect.
		7) Every department maintains Complaint/Suggestion Box in which students are expected to put their suggestions for improvement of the department as a whole.
		8) The students elect a representative body called "Student council" which has regular meeting with Principal and Dean. This is a elected body of students which has a major say in the issues pertaining to the academic as well as non academic.

	g)	Students Feedback on Institutional Governance / faculty performance.
		1. The computerized feedback system is developed in the institute with which feedback is taken from students to assess performance of faculty members. This activity is carried out routinely at the end of each semester. The feedback is given back to the faculty.
		2. The class teacher allocated to each class conducts regular meeting with students to collect their view / opinions about day today activities in the college. The class teacher generates report and submits it to the head of the department for further processing with the management.
		3. A suggestion box is maintained in the department where students can drop their suggestions, which are reviewed and processed. The management reviews such suggestions and takes appropriate actions.
		4. The students in the department can redress their grievances by telling them in the meeting with their class teacher and / or dropping them in the suggestion box kept in the department.
		5. At the end of every year, an appraisal is filled by faculty members and the staff where they can write their grievances to put forward in front of management. This appraisal form is evaluated by the Head of department and Dean. This serves as a mechanism for getting feedback from the staff.
	h)	Grievance redressal mechanism for faculty, staff and students
		1. Suggestions for the academic improvements and grievance are collected in a box.
		2. At the end of every academic year an appraisal forms are filled by faculty members and the staff where they can write their grievances to put forward in front of management. The Head of department and Dean evaluate this appraisal form. This exhaustive form is designed for performance improvement and also serves as a mechanism for grievance redressal.

		3. For students grievance each class has class teacher who is co-ordinator for redressal of the students' grievances.
		4. The weekly meeting of the staff members with the HOD also serves as grievance redressal mechanism for staff members. The Principal and Dean conduct meeting of faculty, staff and students periodically and address various issues, if raised.

Placement Facilities:

The Institute has a separate Department for the Placement Activities. One of the senior most and well qualified Professors, with a long Industrial experience is heading the Department. The Placement Department is located in an independent and well-equipped office. Most of the communications are through Internet, ensuring very quick and prompt response. Under his guidance, there is a Placement Committee consisting of two teaching faculty members from each department. Besides the above, there is student Placement Council which actively coordinates all the activities to make the system more efficient, foolproof and result oriented. The Department is assisted by minimum two Office assistants.

Due care is taken that as far as possible the regular teaching is not hampered and accordingly activities are more focused before and after the College hours, on Weekly Offs and holidays.

There is a well equipped, fully air conditioned and well furnished hall, with all latest audio visual gadgets like LCD Projector, motorized screen, OHP, mike system, Computers, printers, photocopying facilities, telephone facilities, T.V, V.C.R etc. exclusively for Placement Activities. The total seating capacity of the hall is more than 200. Further, two well furnished fully air-conditioned Group Discussion / Personal Interview rooms are provided adjacent to the above hall, to facilitate smooth and effective functioning of the entire Recruitment Processes. The Infrastructure provided is fully self-contained with Notice Boards, required stationary, centralized Public Announcement system etc. Besides this, we have one additional room, one fully air conditioned conference room, a hall having a seating capacity of 150 with mike system and two smart rooms, which are shared with other departments as per the necessity. Considering the availability of excellent infrastructural facilities, many a times, combined Campuses are organized on the request of the Companies. For such cases we have a very spacious and well-equipped auditorium with a seating capacity of 500, for holding the events.

We offer excellent lodging and boarding facilities for the company executives visiting for the Campus Recruitments, in our VIP Guest House located in the premises. In addition to the above, we have a well-maintained Canteen providing highly delicious,

nutritious and hygienic food. We also provide the company executives transportation facilities as and when required.

We have developed excellent relationship with a few of the well-known Multi National companies such as Infosys, Satyam, TCS etc. We have also on going MOU with Infosys, under 'Campus Connect' program, which facilitates Faculty Development Programs, Guest Lectures, Industrial visits, sponsoring of Technical events, Sabbaticals and special contribution to the Institute in terms of Technical books for up-dating the knowledge from time to time.

Before the commencement of the Campus Recruitments for the batch, the Placement Department organizes rigorous training programs on Soft Skills, mock Group Discussion / Personal Interview workshops, with the help of professionals in the field, to groom and prepare the students in facing the entire processes more confidently.

The Placement Department is very well aware that besides the regular course curriculum, Industrial exposure is equally important for the students, to make them more practical oriented and confident, by updating them with latest Industrial practices. Accordingly, number of Industrial visits and Sandwich Training Programs are organized with the help of respective departments.
